

Advances in Latent Variables - Methods, Models and Applications

Brescia - Department of Economics and Management

June 19, 2013 – June 21, 2013

*****NEWS January 29, 2014A selection of extended papers will be eligible for publication in Advances in Data Analysis and Classification.Submission of manuscripts: May 30, 2014*****
*****NEWS October 1, 2013 - CALL FOR Springer BookThe extended papers of the SIS 2013 Statistical Conference will be published by Springer in the new International Series Book Studies in Theoretical and Applied Statistics (call for papers)

*****NEWS JULY 23, 2013 - CALL FOR PAPERSA selection of extended papers will be eligible for publication in the following Springer journals:- Quality & Quantity (call for papers)- Stochastic Environmental Research and Risk Assessment (call for papers)- Advances in Data Analysis and Classification (web site; the special issue on "Latent Class Models" will be published in September)*****
*****Sis supports the International Year of Statistics and this conference has been added to the Statistics2013 Activities Calendar The conference Time Table can be found here

*****The Scientific Program Committee and the Local Organizing Committee want to thank all participants and speakers at the SIS conference: you made this meeting an opportunity for ideas' and experiences' exchange. Thank you*****

Electronic Book “Advances in Latent Variables”

The full version of the Conference Proceedings, collected in the **Electronic Book “Advances in Latent Variables”**, Eds. Brentari E., Carpita M., Vita e Pensiero, Milan, Italy, ISBN 978 88 343 2556 8, are available [here](#).
