EDMUSE

Education and Museum: Cultural Heritage for science learning

Start: 01-09-2015 - End: 31-08-2017
Project Reference: 2015-1-IT02-KA201-015013

Programme: Erasmus+

Key Action: Cooperation for innovation and the exchange of good practices

Action Type: Strategic Partnerships for school education

Topics: Pedagogy and didactics

Key Competences (incl. mathematics and literacy):

basic skills ICT - new technologies - digital competences

Summary

The project proposal is connected to the promotion of initiatives, starting in primary school, for using ICT, the open educational resources and digital resources of cultural heritage for the improvement science learning. The Project aim is to promote a new ways of learning and teaching through innovative method, using technologies and open digital resources that can be non-formal content for design curricula. It also proposed a new way for schools and museums cooperation; Teachers of primary school partners are involved in the project through the learning experience with students of their classes.
