

<b>itENBIS session: Consistency and Robustness issues in the analysis of customer's preferences</b> .....	73
● <b>Towards the definition of a Human-Robot Collaboration scale.</b> <i>Gervasi, R., Mastrogiacomo, L., Franceschini, F.</i> .....	75
● <b>Robust multivariate analysis of mixed type data.</b> <i>Granè, A., Salini, S.</i> .....	82
● <b>A new approach to assess consensus and consistency in customers' preferences.</b> <i>Vanacore, A., Pellegrino, M., Marmor, Y., Bashkansky, E.</i> .....	87
<b>4 - Contributed Sessions</b> .....	92
<b>Regression analysis and applications 1</b> .....	92
● <b>Analysis of the financial performance in Italian football championship clubs by Marginal Models (GEE) and diagnostic measures.</b> <i>Venezuela, M., Crisci, A., D'Ambra, L.</i> .....	94
● <b>Dealing with multicollinearity and outliers in ordinal logit model.</b> <i>Camminatiello, I., Lucadamo, A.</i> .....	100
● <b>The concept of food quality in children: a survey on middle school students in Brescia.</b> .....	105
<i>Golia, S., Simonetto, A., Maio, B., Gilioli, G.</i>	
● <b>A two-part finite mixture quantile regression model for semi-continuous longitudinal data.</b> <i>Maruotti, A., Merlo, L., Petrella, L.</i> .....	110
<b>Statistical methods for Labour Market</b> .....	115
● <b>Robust analysis of the labour market.</b> <i>Corbellini, A., Morelli, G., Magnani, M.</i> .....	117
● <b>An analysis of the requirements market for job profiles in the Italian manufacturing sector.</b> <i>Mariani, P., Marletta, A., Masserini, L., Mussini, M., Zenga, M.</i> .....	122
● <b>From university to job market: an entrepreneurs' view.</b> <i>Crippa, F., Mariani, P., Marletta, A., Zenga, M.</i> .....	127
● <b>Integrated Indicators for the Analysis of the Italian Social Security System.</b> <i>Frenda, A., Scippacercola, S.</i> .....	132
<b>Environment</b> .....	136
● <b>Mines and quarries: An analysis of withdrawals determinants in Italy.</b> <i>Vignani, D., Auci, S.</i> .....	138
● <b>Climate Change and Italian Main Cities: some Evidence from Meteo-climatic Statistics and Indices on Extreme Events.</b> <i>Vignani, D., Budano, F., Buseti, C.</i> .....	143
● <b>A spatial stochastic frontier model for evaluating water use efficiency: the case of fruit and vegetable farming in Apulia (Italy)</b> <i>Benedetti, I., Laureti, T.</i> .....	149
● <b>Hierarchical Disjoint Non-Negative Factor Analysis: environment and waste management in the EU.</b> <i>Cavicchia, C., Sarnacchiaro, P., Vichi, M.</i> .....	154
