Preface	v
<i>Jacob Hofdijk, Brigitte Séroussi, Christian Lovis, Floor Sieverink, Frédéric Ehrlér and Adrien Ugon</i>	
List of Reviewers	vii
Transforming Healthcare with the IoT	
Using Gamification Combined with Indoor Location to Improve Nurses' Hand Hygiene Compliance in an ICU Ward	3
<i>Luís Velez Lapão, Rita Marques, João Gregório, Fernando Pinheiro, Pedro Póvoa and Miguel Mira da Silva</i>	
Integrated System for Monitoring and Prevention in Obstetrics-Gynaecology	8
<i>Andreea Robu, Bianca Gauca, Mihaela Crisan-Vida and Lăcrămioara Stoicu-Tivadar</i>	
Adoption and Use of a Mobile Health Application in Older Adults for Cognitive Stimulation	13
<i>Mobin Yasini and Guillaume Marchand</i>	
Positioning Commercial Pedometers to Measure Activity of Older Adults with Slow Gait: At the Wrist or at the Waist?	18
<i>Frederic Ehrlér, Chloe Weber and Christian Lovis</i>	
Towards a Wireless Smart Polysomnograph Using Symbolic Fusion	23
<i>Adrien Ugon, Brigitte Seroussi, Carole Philippe, Jean-Gabriel Ganascia, Patrick Garda, Karima Sedki, Jacques Bouaud and Andrea Pinna</i>	
Societal Dimensions of the IoT	
Risk and the Internet of Things: Damocles, Pythia, or Pandora?	31
<i>Chris Showell</i>	
A New Challenge to Research Ethics: Patients-Led Research (PLR) and the Role of Internet Based Social Networks	36
<i>Eugenia Lamas, Rodrigo Salinas and Dominique Vuillaume</i>	

Analyzing Privacy Risks of mHealth Applications.	41
<i>Alexander Mense, Sabrina Steger, Matthias Sulek, Dragan Jukic-Sunaric and András Mészáros</i>	
Non-Technical Issues in Design and Development of Personal Portable Devices	46
<i>Lenka Lhotska, Paul Cheshire, Peter Pharow and David Macku</i>	
Towards Citizen-Centred Care: Interim Results from an E-Prescription Case	51
<i>Rick Vuokko, Outi Tikkala and Päivi Mäkelä-Bengs</i>	
x	
Ontology and Decision Support	
Remote Monitoring of Cardiac Implantable Devices: Ontology Driven Classification of the Alerts	59
<i>Arnaud Rosier, Philippe Mabo, Lynda Temal, Pascal Van Hille, Olivier Dameron, Louise Deleger, Cyril Grouin, Pierre Zweigenbaum, Julie Jacques, Emmanuel Chazard, Laure Laporte, Christine Henry and Anita Burgun</i>	
Ontology-Oriented Programming for Biomedical Informatics	64
<i>Jean-Baptiste Lamy</i>	
An Integrated Children Disease Prediction Tool Within a Special Social Network	69
<i>Marika Apostolova Trpkovska, Sule Yildirim Yayilgan and Adrian Besimi</i>	
Ontological Foundations for Tracking Data Quality Through the Internet of Things	74
<i>Werner Ceusters and Jonathan Bona</i>	
Implementation of a Decision Support System for Interpretation of Laboratory Tests for Patients	79
<i>Ilya Semenov and Georgy Kopanitsa</i>	
Clinical Information Systems and Data Reuse	
Exploring Barriers and Opportunities for Adoption of Web Portals in Russia	87

Georgy Kopanitsa and Vladimir Yampolsky

Elderly Surgical Patients: Automated Computation of Healthcare Quality Indicators by Data Reuse of EHR 92
Grégoire Ficheur, Aurélien Schaffar, Alexandre Caron, Thibaut Balcaen, Jean-Baptiste Beuscart and Emmanuel Chazard

Clinical Data Models at University Hospitals of Geneva 97
Dina Vishnyakova, Christophe Gaudet-Blavignac, Philippe Baumann and Christian Lovis

Automated Data Aggregation for Time-Series Analysis: Study Case on Anaesthesia Data Warehouse 102
Antoine Lamer, Mathieu Jeanne, Grégoire Ficheur and Romaric Marcilly

Case-Based Learning: A Formal Approach to Generate Health Case Studies from Electronic Healthcare Records 107
Fabrizio L. Ricci, Fabrizio Consorti, Manuel Gentile, Linda Messineo, Dario La Guardia, Marco Arrigo and Mario Allegra

Posters

Retrieving Clinical and Omic Data from Electronic Health Records 115
Chloé Cabot, Romain Lelong, Julien Grosjean, Lina F. Soualmia and Stéfan J. Darmoni

xi

Smart Medications & the Internet of Things 116
José Costa Teixeira and Catherine Chronaki

Interactive Videos Within an e-Learning Context 117
Jean-Charles Dufour, Alain Emeric and Roch Giorgi

Internet of Things Based Medication Adherence Assessment 118
Hubert Ebner, Dieter Hayn, Martin Kropf, Robert Modre-Osprian and Guenter Schreier

Recruiting Participants to Local Clinical Trials Using Ontology and the IoT 119
Peter L. Elkin, Daniel R. Schlegel and Edwin Anand

Design and Evaluation of a Multi User Medication Reminder Mobile App	120
<i>Mina Fallah and Mobin Yasini</i>	
Barriers to the Success of Health ICT Implementations – A Report from Norway	121
<i>Conceição Granja, Gro-Hilde Ulriksen, Kari Byd, Stein Roald Bolle and Gunnar Hartvigsen</i>	
Cloud Computing in Healthcare: A Space of Opportunities and Challenges	122
<i>Anežka Hucíková and Ankica Babic</i>	
Development of a Web Portal Using Open Source Information Visualization Libraries	123
<i>Georgy Kopanitsa</i>	
Midwifery Education Introduce the Internet of Things	124
<i>Martina Mavrinac, Gordana Brumini and Mladen Petrovečki</i>	
MedBioinformatics: Developing Integrative Bioinformatics Applications for Personalized Medicine	125
<i>Miguel A. Mayer, Laura I. Furlong, Ferran Sanz and MedBioinformatics Consortium</i>	
Incorporating Pharmacy Dispensing Records into Medical Records: Usability Challenges	126
<i>Aude Motulsky, Isabelle Couture, Daniala Weir and Robyn Tamblyn</i>	
Toward a Virtual Community of Healthcare Facilities: Virtual Lab	127
<i>Eustach Muteba Ayumba</i>	
Statistical Classification of Dyscalculia Symptoms Using Smartphones and Behaviour of Magnocellular Cells	128
<i>Greger Siem Knudsen</i>	
Internet of Things & Personalized Healthcare	129
<i>Floor Sieverink, Liseth Siemons, Annemarie Braakman-Jansen and Lisette van Gemert-Pijnen</i>	
Fetching Connected Pedometer Data to Analyze Patients Walking	130

*Julien Souvignet, Claire Le Hello, Béatrice Trombert-Paviot, Benoît Brouard,
Angela Chieh and Christian Boissier*

xii

Consensus on Norwegian Archetypes <i>Gro-Hilde Ulriksen and Rune Pedersen</i>	131
Empowering Patients to Choose Appropriate and Safe Hospital Services <i>Dimitrios Zikos, Karthick Selvaraj, Vivek Vaidyanathasubramani and Pooja Pandey</i>	132
Subject Index	133
Author Index	135
