Table of contents

Preface	ix
Organizing Committee	xi
<i>Introduction</i>	
Pedestrians, urban spaces and health <i>M. Tira</i>	3
<i>Network and infrastructure to improve pedestrian mobility</i>	
E-thinking the road infrastructure for new urban mobility needs <i>G. Cantisani</i>	9
Sensitivity analysis and the alternative optimization of the pedestrian level of service: Some considerations applied to a pedestrian street in Greece <i>T. Campisi, A. Canale, G. Tesoriere, S. Basbas, A. Nikiforiadis & P. Vaitis</i>	17
Urban spaces and mobility in Makkah city: Ordinary organization and big events <i>R. Bahshwan, R. De Lotto & C. Berizzi</i>	22
Increasing urban walkability: Evidences from a participatory process based on spatial configuration analysis <i>P. Pontrandolfi, B. Murgante, F. Scorza, R. Carbone & L. Saganeiti</i>	26
Auditing streets' pedestrian compatibility: A study of school sites' requalification <i>M. Ignaccolo, G. Inturri, G. Calabrò, V. Torrisi, N. Giuffrida & M. Le Pira</i>	30
<i>Sustainable and resilient urban spaces</i>	
Improving city resilience through demand and supply urban dynamics <i>D. Chondrogianni & Y.J. Stephanedes</i>	37
Urban resilience and anthropic risks. The case of the Polcevera Valley in Genoa <i>S. Candia, F. Pirlone, I. Spadaro & A.C. Taramasso</i>	42
Gamification for the enhancement of urban spaces: Cases and tools <i>M. Sciaccaluga & I. Delponte</i>	47
Nature-based solutions for urban resilience <i>R. De Lotto & F. Pinto</i>	51
Definition of pedestrian friendly street parameters and evaluation in the case of Erzurum city <i>E.N. Sari, S. Yilmaz & B.G. Yilmaz</i>	55
Well-being, perception, participation and mobility strategies. The sustainability of the contemporary city <i>M. Lisi, F. Fratini & A. Cappuccitti</i>	61

Walkability and redevelopment

- The walkability of a city with difficult terrain – evaluation of barriers to use of spatial qualities for users and main guidelines for improvement 69
I. Mrak
- Spillover effect of urban regeneration on pedestrian accessibility and walkability 74
M. Tiboni & F. Botticini
- Pedestrian mobility as urban regeneration strategy 79
E. Conticelli, E. Bruni & S. Tondelli
- Urban accessibility as an approach for the regeneration of urban peripheries. The experience of the Sant'Avendrace district in Cagliari 84
T. Congiu, V. Fais & A. Plaisant
- In field assessment of existing pedestrian paths: A comprehensive approach towards pedestrian oriented neighbourhoods 88
S. Rossetti & M. Zazzi
- A citizen science approach to assess the perceived walkable environment and identify elements that influence pedestrian experience at the University of Malta 93
C. Cañas, M. Attard & M. Haklay
- Freewheeling thoughts about public space 97
M.R. Ronzoni

Green infrastructures/Public transport

- Green infrastructures for urban and territorial regeneration. The sustainability of the contemporary city of Somerville 105
S. Cioci
- Boston healthy city: The harborwalk experience 110
L. Kappler
- The node-place model to improve walkability in railway station catchment areas to promote healthy city environments. An application to the municipality of Cercola (NA) 115
G. Carpentieri, C. Guida & L. Faga
- HSR stations' urban redevelopments as an impulse for pedestrian mobility. An evaluation model for a comparative perspective 120
M. Carra & P. Ventura

Sustainable, safe and resilient urban spaces

- Open source data and tools for disaster risk management: Definition of urban exposure index 127
R. De Lotto, C. Pietra & E.M. Venco
- Strategies able to improve the level of safety and protection from seismic and hydro-geo-morphological risks 132
M.A. Bedini, F. Bronzini & G. Marinelli
- Flood vulnerability functions for people and vehicles in urban areas 138
M. Pilotti & L. Milanese

The reduction of the population's residential exposure to radon risk in the municipal urban plan	143
<i>R. Gerundo, M. Grimaldi & A. Marra</i>	
Assessing the economic and health impact of soft mobility. The Lombardy region case study	148
<i>E. Turrini, C. Carnevale, E. De Angelis & M. Volta</i>	
 <i>Pleasant and attractive public spaces</i>	
The public space through an aesthetic ethics	155
<i>A. Tommasoli & L. Tommasoli</i>	
Imageability of geo-mining heritage. Case study of Nebida settlement, Geo-mining Park Sardinia (Italy)	159
<i>N. Beretić & T. Congiu</i>	
Pedestrian healthcare and beauty: Free-accessibility design plan in Taranto (IT)	164
<i>A. Massaro & F. Rotondo</i>	
The effect of Movida on residential property prices: An example from Turin	170
<i>E. Ottoz, P. Pavese & L. Sella</i>	
 <i>Soft mobility and perception of urban landscape</i>	
Improving the walkability for next-generation cities and territories, through the reuse of available data and raster analyses	177
<i>A. Cittadino, G. Garnero, P. Guerreschi, E. Eynard, G. Melis, F. Fiermonte & L. La Riccia</i>	
Investigating the importance of walk stages as a factor in the choice between car and public transport in urban areas	182
<i>D. van Soest, M.R. Tight & C.D.F. Rogers</i>	
Moving through the Quarries Park. The case of Brescia	186
<i>M. Tononi & A. Pietta</i>	
 <i>Pedestrian road safety</i>	
Methodology for data processing for road accidents that involve vulnerable road users. The case of Brescia	193
<i>G. Maternini, M. Bonera, M.G. Speranza, C. Archetti & M. Martinello</i>	
Analyses of factors influencing children behaviour while crossing the conflict zones at urban intersections	198
<i>I. Ištoka Otković, A. Deluka-Tibljaš, S. Šurdonja, A. Canale, G. Tesoriere & T. Campisi</i>	
A hybrid approach for prioritising road safety interventions in urban areas	204
<i>S. Vieira Gomes, C. Roque & J.L. Cardoso</i>	
Defining the characteristics of walking paths to promote an active ageing	209
<i>C. Cottrill, F. Gaglione, C. Gargiulo & F. Zucaro</i>	
Effects of elderly people's walking difficulty on concerns and anxiety while walking on roads	214
<i>T. Matsuura</i>	

<i>Healthy cities for all</i>	
Shared space and visually impaired persons <i>F. Anwar</i>	221
Topographical and physiological data collection for urban handbike tracks design <i>A. Cudicio, A. Girardello, F. Negro, C. Orizio, A. Arengi, G. Legnani & M. Serpelloni</i>	225
Proactive city. The city as a gym for active design <i>E. Marchigiani, I. Garofolo & B. Chiarelli</i>	230
Elderly mobility under the microscope: A multidisciplinary perspective <i>E. Pantelaki, E. Maggi & D. Crotti</i>	236
Participatory experiences supporting more healthy and active cities. The research-intervention “Anziani&Città” <i>E. Dorato</i>	240
 <i>Promoting healthy cities</i>	
The missing path: Promiscuous bicycle lanes in urban areas <i>R. Fistola, M. Gallo, R.A. La Rocca & R. Battarra</i>	247
An operational framework for healthy regeneration practices <i>T. Congiu, A. Plaisant & S. Unali</i>	253
 <i>Conclusive remarks</i>	
Scientific outputs and research needs through bibliometric mapping of LWC discussion <i>A. Richiedei & M. Pezzagno</i>	259
 Author index	 265
