

**T**he book collects the short papers presented at the 13th Scientific Meeting of the Classification and Data Analysis Group (CLADAG) of the Italian Statistical Society (SIS). The meeting has been organized by the Department of Statistics, Computer Science and Applications of the University of Florence, under the auspices of the Italian Statistical Society and the International Federation of Classification Societies (IFCS). CLADAG is a member of the IFCS, a federation of national, regional, and linguistically-based classification societies. It is a non-profit, non-political scientific organization, whose aims are to further classification research.

**GIOVANNI C. PORZIO** PhD, is Professor of Statistics in the Department of Economics and Law at the University of Cassino and Southern Lazio. His research interests include directional statistics, statistical learning, nonparametric multivariate analysis and data depth, graphical methods and data visualization.

**CARLA RAMPICHINI** PhD, is full professor of Statistics and head of the Department of Statistics, Computer Science and Applications ‘G. Parenti’ of the University of Florence. Her research interests relate to random effects models for multilevel analysis, multivariate analysis and evaluation of educational systems.

**CHIARA BOCCI** PhD, is a Researcher in Statistics at the Department of Statistics, Computer Science and Applications ‘G. Parenti’ of the University of Florence. Her current research interests include statistical analysis of spatially referenced data, small area estimation methods, and statistical models for skewed variables.
