# Table of Contents

<b>Table of Contents</b>	<b>7</b>
<b>Editor's Preface to the Series</b>	<b>13</b>
<b>CHAPTER 0. Introduction</b>	<b>17</b>
1. Introduction	18
PART 1 – SCIENCE DISSEMINATION	
<b>CHAPTER 1. Researcher and Stakeholder Cooperation in Scientific Dissemination: Fostering Innovative Challenges, Between Static and Dynamic Dissemination</b>	<b>29</b>
1. Introduction	30
2. Partnership as a basic principle of science dissemination	31
3. Governance as an instrument for managing science dissemination	37
4. The relevance of science dissemination	40
5. Early examples of dissemination in the study of urban settlements: From the CURB project to the Turin project	42
6. Multidisciplinarity and dissemination: Two aspects of the same process	45
7. Multidisciplinarity and dissemination: Italo Calvino's contribution to the study of urban settlements	46
8. Multidisciplinarity and dissemination Italo Calvino's contribution to the study of food and the landscape	50
9. Science dissemination: Functional illiteracy and national prosperity	55
10. New tools and new cultures	57
11. Conclusions	61
12. References	62
<b>CHAPTER 2. A Review of FAO Dissemination Tools and Techniques</b>	<b>65</b>
1. Introduction	66
2. Dissemination	67
3. Statistical Activities for dissemination	69
4. Understanding and improving access to on-line information	70
Appendix I. Interview to Mr Enrique Yeves	75
References to WEB sites consulted	77

PART 2 - INNOVATIVE COOPERATION BY TECHNICAL INSTRUMENTS

<b>CHAPTER 3. Pelagos, Sea Communication</b>	<b>79</b>
1. Introduction	80
2. Ostia: Rome's seafront	80
2.1. The unresolved relationship between the Italian capital and its seafront	80
2.2. The dormitory town of the 1970s and the phantom beach	82
2.3. The first initiatives to re-launch the Port of Rome	83
3. The Origins of the Association	85
3.1. A new association model	86
3.2. Sport, Culture and the Environment, the sentinels of the sea	86
3.3. Relationships with Schools and Universities	87
4. Towards internationalisation	88
4.1. Ostia Azzurra: the first major collective event dedicated to the sea	89
4.2. From the Collaboration with Antibes to the Pelagos Festival	91
4.3. From audiovisual productions to Pelagos TV	93
4.4. Pelagos becomes a <i>Campaign</i>	93
5. From Travelling Initiatives to BIG BLU	94
5.1. Pelagos Exhibition: a Multidisciplinary Platform	95
5.2. Youth project: A Passport to the Sea	97
5.3. Euromed and International Conference Organisation	100
6. The Rome Charter for Sea Heritage	101
6.1. Culture, business and communications: birth of the Sea Heritage Best Communication Campaign Award and Sea Heritage Day	102
6.2. Pelagos Prize	103
7. Context Analysis and Methodology: Outstanding Rome	104
8. The New Frontiers of Dissemination	105
8.1. Open Access	105
8.2. Digital Archives	107
8.3. Brands and Quality Marks	109
9. Conclusions	110
<b>CHAPTER 4. Monitoring Children's Vision of Mass Tourism in Historic Centres by Means of Photography: Presentation of a Case Study's Working Method</b>	<b>113</b>
1. Introduction	114
2. A method of approach	123
3. A working method for the definition of a biased photography course for children	126
4. What to photograph	128
5. Conclusions	136
6. References	136

<b>CHAPTER 5. Employing researches, stakeholders and end-users in research projects: networking, forums and the social media</b>	<b>137</b>
1. Introduction	138
2. Transdisciplinarity, Stakeholders and the social media	140
2.1. Conceptual model	142
3. Methodology	143
3.1. The Forum	143
3.2. LinkedIn group	143
4. Results	144
4.1. The forum and end-user participation	144
4.2. LinkedIn – linking academics and professionals	148
5. Conclusion and recommendations	150
6. References	152
6.1. Project SECOA references	153
<b>CHAPTER 6. Citizen participation and awareness raising in coastal protected areas. A case study from Italy</b>	<b>155</b>
1. Introduction	156
2. Citizen information and participation in public choices for coastal management	157
3. Methods of social research	159
3.1. Classical methods of social research	159
3.2. Alternative methods	162
4. Tools for raising participation and mitigating conflicts in the Costa Teatina National Park	180
4.1. Contacts with local stakeholders	180
4.2. Publication of articles in local newspapers for public awareness raising	180
4.3. Participation in the public conference “Parco e Territorio. La strada dello sviluppo”	182
4.4. Spatial Shang as a tool to facilitate the boundary definition	184
4.5. Maps with alternative development scenarios	186
4.6. The video	187
4.7. The webpage	187
4.8. The online questionnaire	189
5. Discussion and Conclusions	192
6. References	193
Acknowledgements	196
Notes	196

PART 3 - SCHOOL DISSEMINATION AND THE TEACHERS FEEDBACK BY SCHOOL TEACHERS:  
CIVITAVECCHIA AND OSTIA AS CASE STUDIES

<b>CHAPTER 7. Project Secoa in the school Plexus Borgata Aurelia, I.C. Don Milani in Civitavecchia, School year 2012/2013</b>	<b>199</b>
1. Introduction	200
2. Guidelines for the meeting with the university professor, head of the SECOA project	201
3. Description of the tools and the actions for the participation in the SECOA project	201
4. Use of images and language	205
5. Hints	205
6. Conclusions	205
Box 1. the ECO GIOCO «Respect Nature: Happy Nature»	206
How to learn playfull	206
The game consists of the following parts	206
How to play	207
ECO GIOCO	208
<b>CHAPTER 8. Education: Science students at the Vincenzo Pallotti secondary school encounter real-world science with the SECOA project</b>	<b>210</b>
1. Introduction	211
Box. 1. SECOA PROJECT: OUR LIFEJACKET	213

PART 4 – THE SECOA END USERS

<b>CHAPTER 9.</b>	<b>219</b>
1. The SECOA end user meeting in Mumbai, December 2012	220
1.1. Introduction	220
Box 1. Reflections and suggestions elaborated by David Rumble, member of the SECOA end-users group	225
What can end-users contribute?	225
What do end-users expect?	225
Box 2. Reflections and suggestions elaborated by Asaf Ariel, member of the SECOA end-users group	227
We can provide	227
What do end-users expect?	227
2. The ISPRA Institute	228
2.1. ISPRA	228
2.2. ISPRA activities	228
2.3. Which are the suggestions that stakeholder poses for the calls for HORIZON 2020?	228

2.4. In the SECOA project reference was made to a static and traditional dissemination, in which the information is transmitted by researchers to stakeholders, and a dynamic dissemination, in which the dissemination is realized in a reciprocal manner (researchers - stakeholders - researchers). Could the stakeholder give some comments?	230
3. Role of NGOs in Research and Management of Environmental Problems: A Case Study of Mumbai	233
3.1. The Issue of Sanjay Gandhi National Park	234
3.2. Mithi River	234
3.3. Coastal Areas	235
3.4. Research	236
4. Hampshire & Isle of Wight Wildlife Trust, UK	237
5. Risks, Planning and Governance Challenges in Coastal Areas: Municipality of Albufeira and the SECOA Project	240
5.1. References	243
6. Eco Ocean, Marine Research and Education, NGO, Israel End Users contribution to the dissemination of SECOA	244
7. National Voice of Coastal Communities	246
7.1. What can end-users contribute?	246
7.2. What we can provide	246
7.3. What end-users expect from scenarios	247
7.4. Recommendations	247
<b>CHAPTER 10. General Conclusion</b>	<b>249</b>
<b>List of Tables</b>	<b>253</b>
Chapter 0.	253
Chapter 2.	253
Chapter 5.	253
Chapter 6.	253
Chapter 9.	253
<b>List of Figures</b>	<b>254</b>
Chapter 0.	254
Chapter 1.	254
Chapter 2.	254
Chapter 3.	254
Chapter 4.	255
Chapter 5.	256
Chapter 6.	256
Chapter 7.	256
Chapter 9.	256
